If you want to work in an exciting, fast-paced environment that encourages teamwork, consider joining Rex Energy in this opportunity available in our Bridgeport, IL office(Southern Illinois, Lawrence County).

Production Engineer

Summary:

This position evaluates Rex Energy leases to optimize production. Reviews existing well-bores for potential re-work, monitors lease production, and identifies development opportunities.

Education/Qualifications:

1. Bachelor of Science in Engineering.
2. 1 to 3 years petroleum industry experience desirable.

Requirements/Skills:

1. Good math and computer skills.
2. Familiar with Microsoft Office products.
3. Good organizational skills.
4. Ability to work independently.
5. Good intrapersonal skills.
6. Registered engineer a plus.
7. Valid driver's license.

Job Duties and Responsibilities:

- Review leases to identify re-work or development opportunities.
- Review daily production to identify production shortfalls and recommend correction actions.
- Generate re-work, repair, abandonment and drilling procedures.
- Investigate current and potential operating changes to reduce costs and increase production.
- Interact with production foreman to develop a good working relationship to approach production actions with a team plan.
- Provide input for quarterly reviews of business plan and assist with annual budget process.
